Summary

Frontend Developer with 4+ years of experience delivering business-critical web solutions using modern UI frameworks and approaches. Lead and mentor frontend teams to ship enterprise-grade applications used by 9,000+ care organizations and millions of patients across the USA and UAE. Focused on scalable UI architecture, performance optimization, high-quality code delivery and end-to-end feature ownership.

Skills

Frontend: React Js, Vue Js, JavaScript (ES6+), Typescript, Next.js, Redux, HTML5, CSS3, Bootstrap, Material UI, Jest

APIs and Databases: REST API, Axios, API Integration

Development Tools: Git, Webpack/Vite, NPM, CI/CD basics, VS Code, Chrome Devtools, Postman, Swagger, Figma

Methodologies: Micro-frontend, Test-driven development (TDD), UI design principles, Agile & SCRUM, Object Oriented Programming (OOP), Performance Optimization, SDLC

Experience

Cavista Technologies (Axxess)

Feb 2023 - Present

Frontend Engineer II (SDE-2) | Pune, India

- Worked on Vue and React product applications, developed features used by 5,000+ users daily across the USA & UAE.
- Implemented reusable functional components, common utilities, optimized key screens and migrated 30% of legacy code to modern UI with improved performance.
- Mentored and led a frontend team of 7 engineers distributed across the globe.
- Debugged and resolved critical bugs, reviewed and refactored code resulting in a 20% reduction in customer-reported issues and hotfixes and a ~50% improvement in bug resolution time.
- Collaborated with product managers, analysts, and 6+ cross-functional teams to gather requirements and streamline a smooth development and deployment process.

Xoriant

Aug 2021 - Feb 2023

Associate Frontend Engineer | Pune, India

- Built a React.js application for a U.S. client covering both user and admin portals utilized by 10+ agencies.
- Delivered 5+ responsive UI screens, managed Redux state, used React Hooks, and ensured clean, maintainable code.
- Showcased feature demos to clients on behalf of the engineering team, reducing revision cycles by ~25%.
- Performed unit testing, UAT testing, and applied quick bug fixes, ensuring 100% on-time delivery across sprints.

Education

Bachelor of Engineering (B.E) in Computer Engineering

July 2017 - July 2021

Pune University | Pune, Maharashtra, India

Certifications

Agile Scrum Mastery: **Certified Scrum Master and Project Management** - Udemy

Personal Projects

- React E-commerce Dashboard

[github-link EcommerceSearch](#)

Designed e-commerce dashboard with product listing, search, and pagination using React Js, Typescript, Material UI with advanced React optimization techniques (memoization, state tuning) for high-performance rendering.

- Rent Management System

[github-link Personal RentManagement](#)

Created a platform for automated rent calculations, renter CRUD, and digital history tracking using Next.js, Firebase-Firestore, and Tailwind. Purpose-built for real-world use with a fast, scalable, mobile-first UI.
